

REMARKS

Applicant is cancelling all of the previously pending claims and adding new claims 24-30. Support for claim 24 is found in Applicant's Specification page 8, lines 7, 17, and 19; page 2, lines 16-17; and originally filed claims 1 and 23. Support for dependent claims 25-30 are found in originally filed claim 3; page 10, line 8; page 9, line 18; claim 6; claim 14; and claim 15 respectively. No new matter has been entered.

Applicant's new claims have been drafted to overcome previous rejections under 35 U.S.C. 101 regarding statutory subject matter, and 35 U.S.C. 102(e) regarding material bearing no functional relationship to its substrate. Claims 25-30 are believed to be allowable and such allowance is respectfully requested.

The Application is deemed in condition for allowance and such action by the Examiner is urged. Should differences remain, however, which do not place one/more of the remaining claims in condition for allowance, the Examiner is requested to phone the undersigned at the number provided below for the purpose of providing constructive assistance and suggestions in accordance with M.P.E.P. Sections 707, 707.07(d) and 707.07(j) in order that allowable claims can be presented, thereby placing the application in condition for allowance without further proceedings being necessary.

Respectfully submitted,
